MINOR IN LINGUISTICS

The linguistics minor provides students with training in the analysis of both the formal structures and social functions of language. Through critical analysis of key readings and approaches in linguistics, students learn how to interpret data and apply these analyses to theoretical debates and practical issues in linguistics and related fields. The interdisciplinary curriculum incorporates courses offered by the Departments of Speech, Language, and Hearing Science, Anthropology, Philosophy, Computer Science, and English.

Visit the program website (https://speechhearing.columbian.gwu.edu/linguistics-minor) for additional information.

REQUIREMENTS

This Bulletin covers the degree requirements for students matriculating in the current academic year. Students who matriculated before the current year can find their requirements in the relevant archived Bulletin (http://archives/).

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses (6 credits in each of two groups of elective options).

Students interested in the Cognitive Science of Language should visit the SLHS Program page (https://speechhearing.columbian.gwu.edu/bs-cognitive-science-language).
