The Milken Institute School of Public Health (GWSPH) was formally established on July 1, 1997, as the first school of public health in Washington, DC. Located on the Foggy Bottom campus of the George Washington University, it remains the only public health school in the nation’s capital. When the GWSPH opened its doors, it brought together a number of academic programs from across the University, including the signature master of public health (MPH) degree, which was then offered in the School of Medicine and Health Sciences. The founding of the GWSPH was an opportunity to integrate these disparate public health programs and build a preeminent school whose purpose is to educate future public health leaders and practitioners. The vigor and enthusiasm that created the vision for the school has been rekindled as the institution solidifies its place as a world-renowned hub for science, learning, research, community engagement, and applied practice.

GWSPH faculty and students are tackling some of public health’s biggest problems through groundbreaking research. Whether by studying vectors and microbiomes to prevent infectious outbreaks and antimicrobial resistance in state-of-the-science laboratories and genomic core, or by working with government and community partners to end the HIV epidemic in the District of Columbia, or by using big data and environmental surveillance to study the impact of climate change, GWSPH is changing the world through the research it does, the students it educates, and the practice and policies it transforms.

GWSPH enrolls more than 2,000 students, who come from nearly every U.S. state and many other nations to pursue undergraduate, graduate, and doctoral-level degrees in public health. Seven departments form the school: Biostatistics and Bioinformatics, Environmental and Occupational Health, Epidemiology, Exercise and Nutrition Sciences, Global Health, Health Policy and Management, and Prevention and Community Health.

Mission
GWSPH advances population health, well-being, and social justice locally, nationally, and globally by:

• Applying public health knowledge to enhance policy, practice, and management;
• Conducting rigorous, basic, applied, and translational research; and,
• Educating the next generation of public health leaders, policymakers, practitioners, scientists, advocates, and managers.

Vision
Healthier and safer communities powered by public health.

Values
GWSPH shares the following core values:

• Achieving excellence in all endeavors;
• Promoting a culture of service that respects the contributions of all members of its community;
• Embracing social justice and diversity as we work to realize health equity for all individuals and communities, however they are identified;
• Aspiring to innovative, ethical and evidence-based policy, research, practice, management, and pedagogy; and
• Engaging in sustainable practices that promote healthy environments

Accreditation
The public health programs of the Milken Institute School of Public Health (GWSPH) are fully accredited by the Council on Education for Public Health (CEPH). In 2016, GWSPH was awarded a seven-year accreditation through July 1, 2023. The program in health administration is fully accredited by the Commission on Accreditation of Healthcare Management Education (CAHME). GWSPH is a member of the Association of Schools and Programs of Public Health (ASPPH).

REGULATIONS

Undergraduate Regulations
Graduation Requirements
Depending on the Milken Institute SPH degree program, students must complete 120 to 124 credits to earn their degrees. Students in the BS in exercise science and nutrition science degree programs must have a minimum cumulative GPA of 2.5 in courses in the exercise science or nutrition science core respectively; those in the BS in public health program must have a minimum overall cumulative GPA of 2.5. The University General Education Requirements are listed under each program’s requirements tab in this Bulletin.

While degrees are awarded at the end of each semester, formal commencement ceremonies occur only in May. Students are eligible to graduate only after they have completed all degree requirements and have no financial obligations to the University. Students may include degree designations (BS, MS,
Enrollment Status

Once entered in an undergraduate degree program, students are expected to be registered continuously during all fall and spring semesters and to be engaged actively in fulfilling the requirements for their degree.

- During the summer session, students do not have to be enrolled unless they are graduating during the summer; in this case, they should register for Continuous Enrollment.
- Some additional activities, such as study abroad programs, qualify as continuous enrollment.

Degree students who need to interrupt active pursuit of the degree may petition to take a leave of absence for a period of no more than one calendar year during their program. Students who discontinue active enrollment in degree studies without being granted a leave of absence, or students who are granted a leave but do not return to active study at the close of the period of approved absence, are no longer in status and must apply for readmission and be subject to the regulations and program requirements then in effect. Readmission to any program is a competitive process and not guaranteed.

Advising

Students are responsible for building a support system to help ensure their own academic success. Each student is assigned an professional academic advisor who may assist not only with academic counseling, but also in areas ranging from understanding University requirements to finding campus resources to help individual students connect with the GW community. Faculty mentors, tutors, and/or counselors also should be part of the support system. The Center for Career Services and The Writing Center offer walk-in and by-appointment assistance. Personal counseling and other individualized services are available through Mental Health Services, Disability Support Services, Multicultural Student Services Center, and International Services Office.

Milken Institute SPH students may pursue a double major, either within the Milken Institute SPH or across the University.

Students in the exercise science and nutrition science majors who earn a grade of D+ or below in the first course of a sequence (such as EXNS 1110 or EXNS 2111) may not take the second course in the sequence in the following semester. Students must earn a C- or above in the first course before taking the second course in the sequence. Please see your advisor for more information.

Timely Progress Toward the Degree

Students who fail to make adequate and timely progress toward the degree, through repeated leaves of absence or repeated failure to complete an appropriate number of credits per semester, may be dismissed from the University (see Right to Dismiss Students under University Regulations). Students dismissed on these grounds may apply for readmission after supplying sufficient evidence of academic promise. Additionally, students must attain grades no lower than C- in required major field courses. If a student receives a grade of D+, D, or D– in a course specifically required for the major, the student is required to repeat the course until a satisfactory grade (C- or above) is earned. For the BS in public health program, this requirement applies to all courses that apply to the major, including required courses, pre-requisites for required courses, and elective coursework. Once the student has completed the course with a satisfactory grade, credits earned the first time the course was taken count toward the minimum number of credits required for the major. Credits earned toward the repetition do not count toward the degree.

Incompletes

Conditions under which the symbol I, Incomplete, may be assigned are described under University Regulations. In the Milken Institute SPH, the conditions for granting a notation of I must be documented in a written contract between the faculty member and the student, to be submitted prior to the last day of the term. The incomplete work must be completed as specified in the contract but no later than six months from the end of the semester in which the course was taken. If work for the course is not completed within the designated time, the grade is converted automatically to a grade of F. In cases of well-documented extenuating circumstances, an instructor and a student may jointly petition the dean for additional time in which to complete the work of the course.

Pass/No Pass Option

Junior or senior students in good standing may, with the permission of the instructor and program director, take one course each semester for a grade of P, Pass, or NP, No Pass. No student is allowed to take more than a total of four courses on a P/NP basis under this regulation. Students may, however, also receive grades of P/NP in courses that are graded only on that basis. Courses required for the University General Education Requirement or in the student’s major or minor field (including those courses required for the major that are offered by other departments) may not be taken on the P/NP basis. A transfer student may not choose this option until the second semester of enrollment in the University. Under no circumstances may a student change from P/NP status to graded status, or vice versa, after the end of the eighth week of class. The Milken Institute SPH and the University do not allow LSPA courses to be counted toward the degree.

Academic Workload

To encourage academic performance of high quality, the Milken Institute SPH limits the number of credits an undergraduate student may register for in a given semester to 17. However, after freshman year, students who wish to request approval for a course overload may do so. Requests are reviewed based on prior academic performance. Students must be in good academic standing and have no pending incomplete grades, or grades of F, W, or Z from the previous
semester. Permission to take a workload of 18+ credits requires the written approval of the faculty advisor. Permission to take a workload of 18+ credits may be granted for full-time students who, during the immediately preceding semester, have received no grades below B- and have earned grades of A or A- in three courses totaling at least 9 credits with the written approval of a dean. Undergraduates taking more than 18 credits per semester are charged at the rate of 1 credit for each credit exceeding that limit.

Applying for Readmission to a Program
Undergraduate students who previously were registered in a SPH program but who did not register during the immediately preceding semester (summer sessions excluded) are out of status and must apply for readmission by completing an admissions petition. Filing the petition does not guarantee that the student will be readmitted. Milken Institute SPH departments are responsible for readmitting students and can do so only if the student is not in violation of other Milken Institute SPH or University policies. Students who have attended one or more academic institutions while absent from this University must have complete, official transcripts from each institution sent directly to the Milken Institute SPH Office of Admissions. Applicants for readmission are considered on the basis of policies and program requirements currently in effect and if readmitted, are subject to the policies and program requirements then in effect.

International Students--Less than Full-Time Status
International students on an F-1 or J-1 Visa are responsible for enrolling as a full-time student (minimum 12 credits for undergraduate students) for spring and fall semesters according to U.S. Immigration and Naturalization rules governing registration requirements. In certain circumstances, a reduced workload may be allowed; students should contact the International Services Office (http://internationalservices.gwu.edu/) to request approval for this exception.

Special Honors
In addition to meeting the general requirements stated under University Regulations, a candidate for graduation with Special Honors in exercise science and nutrition science must have a minimum GPA of 3.5 in required courses in the major and a minimum overall GPA of 3.25. The candidate must submit an honors paper and give a presentation on the findings. The student is recommended for graduation with special honors only if a committee of at least two faculty members approves the final products. Students interested in pursuing special honors should contact their academic advisor and program director early in the program to ensure that all requirements for special honors are met in a timely manner.

Independent Study Course Requirements
Independent study is designed to provide the student with an opportunity to gain or enhance public health knowledge and to explore an area of interest related to public health research or the delivery and/or administration of health services. Forms and instructions for registration are available online (http://publichealth.gwu.edu/academics/forms/). Independent study projects may not be used as a substitute for an available required or elective course and may not cover substantially the same subject matter that is available in a required or elective course.

Preparation for Medical School
A student who plans to apply to medical school fulfills the general requirements of their program. The pre-health advisors in the Columbian College Office of Undergraduate Studies (prehealth@gwu.edu) provide advice about academic preparation for medical school. For admission to most medical schools, the student must earn a bachelor’s degree that includes the following coursework: Biology—8 credits of introductory biology, including laboratory. Students who receive credit for AP biology must complete 8 credits of upper-level biology coursework, including laboratory; chemistry—8 credits of general inorganic chemistry, including laboratory; organic Chemistry—8 credits, including laboratory; biochemistry—3 credits; physics—8 credits, including laboratory; and English—6 credits in introductory English composition courses (fulfilled by the University Writing Program). Many medical schools have additional entrance requirements, which may include courses in biochemistry, genetics, and mathematics; even when such courses are not required, they are strongly recommended. With the exception of the specified requirements, applicants are urged to follow their personal interests in developing their course of study.

Preparation for Law School
A broad liberal arts education is the best undergraduate preparation for law school. Students are encouraged to use elective credit to increase the breadth of their program of study. Advice about academic preparation for law school is provided by the pre-law advisor in the Columbian College Office of Undergraduate Studies (https://advising.columbian.gwu.edu/).

Other Regulations
Other regulations applicable to undergraduate students of the University can be found under University Regulations (http://bulletin.gwu.edu/university-regulations/).

Graduate Regulations
The Milken Institute SPH provides an online Graduate Student Handbook (https://publichealth.gwu.edu/content/services-students/), which contains additional updated information on policies, regulations, and other matters of concern to enrolled or admitted students. It is the responsibility of the student to
be aware of the information contained in both this Bulletin and the Handbook. Students should also consult departmental handbooks and guidelines.

**Enrollment Status**

Once entered in a graduate degree program, students are expected to be registered continuously during all fall and spring semesters and engaged actively in fulfilling the requirements for the degree.

During the summer session, students do not have to be enrolled unless they are graduating during the summer; in this case, they should register for Continuous Enrollment.

- Some additional activities, such as Master’s International, qualify as continuous enrollment.

Degree students who need to interrupt active pursuit of the degree may petition to take a Leave of Absence for a period of no more than one calendar year during the their program. Students who discontinue active enrollment in degree studies without being granted a leave of absence, or students who granted a leave but does not return to active study at the close of the period of approved absence, are no longer in status and must apply for readmission and be subject to the regulations and program requirements then in effect. Readmission to any program is a competitive process and not guaranteed.

**Advising**

Students are responsible for building a support system to help ensure their own academic success. Each student is assigned a faculty advisor who may assist not only with academic counseling, but also in areas ranging from understanding University requirements to finding campus resources to help individual students connect with the GW community. Other members of the faculty, professional advisors, tutors, and/or counselors also should be part of the support system. The University Career Center (http://publichealth.gwu.edu/services/career-center/) and Writing Center (http://www.gwu.edu/%7Egwriter/) offer walk-in and by-appointment assistance. Personal counseling is available through the office of the Dean of Student Affairs (http://students.gwu.edu/), Mental Health Services (http://counselingcenter.gwu.edu/), Disability Support Services (https://disabilitysupport.gwu.edu/), the Multicultural Student Services Center (https://mssc.gwu.edu), and the International Services Office (https://internationalservices.gwu.edu/).

**Academic Standing**

Graduate students who are not suspended, on academic probation, or under extended provisional admission status are considered to be in good standing. Maintenance of a minimum GPA of 3.0 is required for the degree. All courses taken for graduate credit after matriculation as a degree candidate—including those the Milken Institute SPH transferred in from non-degree status, but excluding those audited or taken for the grade of CR/NC—are used to calculate the GPA.

**Transfer Credits**

Graduate students may be eligible to transfer up to 12 graduate credits from an accredited university if they have not been applied to a previous graduate degree. External credits must have been earned within the last 3 years with a grade of B (3.0) or better in each transferred course. SPH graduate certificate students may be eligible to transfer as many credits as meet program requirements—up to 18 credits—to a master’s degree. SPH graduate certificate students wishing to transfer to a degree program may apply to do so via the online change of concentration petition after completion of 3 or more courses and a cumulative GPA of 3.0 or above, however only courses earning a B or better are eligible to be transferred.

**Provisional Admission**

Graduate program applicants with credentials that are weaker than expected for graduate study, but who nonetheless show promise of successful graduate work, occasionally are granted provisional admission by the Milken Institute SPH Admissions Committee. While on provisional admission status, students are required to see their advisors each semester prior to registration. Provisionally admitted graduate students must demonstrate their ability to maintain a minimum GPA of 3.0 in the first 9 credits of coursework attempted, and during this time are not allowed to receive an Incomplete or a grade lower than a B; provisionally admitted students who meet these requirements are granted good standing. Provisionally admitted students who do not meet these requirements are subject to suspension.

**Semester Warning**

Graduate students whose cumulative GPA is below 3.0 after attempting a minimum of 1 credit and a maximum of 8 credits are issued a warning at the end of the semester and are required to take corrective measures, such as meeting with their academic advisor to outline steps to raise the GPA.

**Probation**

Graduate students whose cumulative GPA falls below 3.0 at any point after completing 9 credits are placed on probation. This probation extends through the period in which the student next attempts up to 12 credits of work, including prescribed courses. A student’s program may be restricted by the program director if deemed necessary. During this period, the student’s performance is monitored to determine suitability for continued study. A student who fails to raise the cumulative GPA to 3.0 or above during the period of probation is subject to suspension. Incompletes and grades of B- or below are not permitted during the probationary period and are grounds for automatic suspension. A student who is subject to probation for a second time at any point during their degree program may be suspended automatically.

**Grade of F**

Graduate students who receive a grade of F are subject to suspension. If such students wish to remain enrolled, they must
present cause, for consideration by the dean and the director of their degree program, as to why continued study should be permitted. Once a grade of F is earned in a core, required, or elective course, it remains a part of the student’s permanent record and is calculated into the GPA. A graduate student who receives the grade of F in a core or other required course and is permitted to continue in graduate studies must repeat the course and achieve a minimum grade of B. The repetition does not, however, expunge the grade of F, which remains part of the student’s record. If the student receives a grade below B in the repeated course, they are suspended from the degree program.

**Suspension**

Graduate student who receive an F or do not meet the conditions of probation are subject to suspension. Suspended students may not register for or complete any courses at The George Washington University. The dean, in consultation with the student’s academic advisor, may continue a student on probation (in lieu of suspension) if satisfactory progress is demonstrated during the probationary period, and sufficient evidence of academic promise, by way of a statement of appeal, is offered by the student. A student who is suspended or withdraws under these conditions may apply for readmission after one semester. To be readmitted, the student must submit evidence that suggests the probability of academic success. A student who is readmitted continues on academic probation and must achieve a minimum GPA of 3.5 in the next 12 credits of graduate study. Should the student fail to achieve this GPA, he or she is suspended and will not be readmitted.

**Timely Progress Toward the Degree**

A graduate student who fails to make adequate and timely progress toward the degree, through repeated leaves of absence or repeated failure to complete an appropriate number of credits per semester, may be suspended. Students suspended on these grounds may apply for readmission after supplying sufficient evidence of academic promise.

**Summary of Academic Standing Policies for Graduate Students**

- **Provisional Admission**—A student who receives a grade of I or of B- or below while on provisional admission status is subject to suspension.
- **Semester Warning**—A student with a cumulative GPA below 3.0 (with fewer than 9 credits completed) must take corrective action.
- **Academic Probation**—A student with a cumulative GPA below 3.0 (with 9 or more credits completed) is placed on academic probation. A student on academic probation who receives an unacceptable grade (B-, C, F, I, Z) or fails to raise the cumulative GPA to 3.0 within the next 12 credits taken is subject to suspension.
- **Grade of F**—A student who receives a grade of F is subject to suspension. If a student wishes to remain enrolled they must present cause as to why continued study should be permitted. If permitted to continue in graduate studies, the student must repeat the course (if core or required) and achieve a minimum grade of B.
- **Suspension**—A student who is suspended may not register for or complete any courses at GW. A student who is suspended or withdraws under these conditions may apply for readmission after one semester.

**Incompletes**

**Incompletes** - Conditions under which the symbol I, Incomplete, may be assigned are described under University Regulations (http://bulletin.gwu.edu/university-regulations/). In the Milken Institute SPH, the conditions for granting a notation of I must be documented in a written contract (https://publichealth.gwu.edu/content/incomplete-course-grade-contract/) between the faculty member and the student, to be submitted prior to the last day of the term. The incomplete work must be completed as specified in the contract but no later than six months from the end of the semester in which the course was taken. If work for the course is not completed within the designated time, the grade is converted automatically to a grade of F. In cases of well-documented extenuating circumstances, an instructor and a student may jointly petition the dean for additional time in which to complete the work of the course.

**In Progress (IP)**

The notation In Progress (IP) is assigned for all thesis, residency, advanced reading, independent study, culminating experience, practicum, and dissertation research courses until the coursework is completed. Upon the satisfactory completion, the grade replaces the notation IPG on the transcript. An IPG may not be assigned to regular, semester-length courses.

**Applying for Readmission to a Program**

**Students Who Have Taken Classes Within the Past Year:** Milken Institute SPH graduate degree or certificate students who were previously registered in the university but did not register during the immediate preceding semester/module (excluding summer sessions) are out of status and must apply for readmission by completing an admissions petition (http://publichealth.gwu.edu/academics/forms/)

**Students Who Have Not Taken Classes in More Than a Year:** Students who have not taken any courses at GW in more than one year must apply for readmission using SOPHAS Express (https://sophasexpress.liaisoncas.com).

**Students Who Have Been Suspended:** Students who were suspended from the Milken Institute SPH must apply for readmission through SOPHAS Express (https://sophasexpress.liaisoncas.com). Students may only apply for readmission after at least one academic year has passed. Students should consult with the advisor concerning readmission requirements.
International Students---Less than Full-Time Status
International students on an F-1 or J-1 Visa are responsible for enrolling as full-time student (minimum 9 credits for graduate students) for the spring and fall semesters according to the U.S. Immigration and Naturalization rules governing registration requirements. Under certain circumstances, a reduced workload may be allowed. To request approval for a course reduction, students should submit the F-1/J-1 Request for Reduced Course Load Form (https://internationalservices.gwu.edu/forms-handouts/). More information is available by calling the ISO at (202) 994.4477.

Independent Study Course Requirements
Independent study is designed to provide students with an opportunity to gain or enhance public health knowledge and to explore an area of interest related to public health research or the delivery and/or administration of health services. Instructions and forms required for registration (http://publichealth.gwu.edu/academics/forms/) are available. Independent study projects may not be used as a substitute for an available required or elective course and may not cover substantially the same subject matter that is available in a required or elective course.

Graduation
While degrees are awarded at the end of each semester, formal commencement ceremonies occur only in May. Students are eligible to graduate only after they have completed all degree requirements and have no financial obligations to the University. Students may include degree designation (BS, MS, MPH, MHA, DrPh, or PhD) after their name only when they have completed all degree requirements.

Other Regulations
Other regulations applicable to graduate students of the University can be found under University Regulations. (http://bulletin.gwu.edu/university-regulations/)

DEPARTMENTS

Departments
• Biostatistics and Bioinformatics (http://bulletin.gwu.edu/public-health/biostatistics-bioinformatics/)
• Environmental and Occupational Health (http://bulletin.gwu.edu/public-health/environmental-occupational-health/)
• Epidemiology (http://bulletin.gwu.edu/public-health/epidemiology/)
• Exercise and Nutrition Sciences (http://bulletin.gwu.edu/public-health/exercise-science/)
• Global Health (http://bulletin.gwu.edu/public-health/global-health/)
• Health Policy and Management (http://bulletin.gwu.edu/public-health/health-policy-management/)
• Prevention and Community Health (http://bulletin.gwu.edu/public-health/prevention-community-health/)

UNDERGRADUATE

Bachelor's programs
• Bachelor of Science with a major in exercise science (http://bulletin.gwu.edu/public-health/exercise-science/bs/)
• Bachelor of Science with a major in exercise science, pre-athletic training/sports medicine concentration (http://bulletin.gwu.edu/public-health/exercise-science/bs/pre-athletic-training/)
• Bachelor of Science with a major in exercise science, pre-medical professions concentration (http://bulletin.gwu.edu/public-health/exercise-science/bs/pre-medical/)
• Bachelor of Science with a major in exercise science, pre-physical therapy concentration (http://bulletin.gwu.edu/public-health/exercise-science/bs/pre-physical-therapy/)
• Bachelor of Science with a major in nutrition science (http://bulletin.gwu.edu/public-health/bs-nutrition-science/)
• Bachelor of Science with a major in nutrition science, pre-medical professions concentration (http://bulletin.gwu.edu/public-health/bs-nutrition-science/pre-medical-professions-concentration/)
• Bachelor of Science with a major in public health (http://bulletin.gwu.edu/public-health/bs-public-health/)
• Bachelor of Science with a major in public health, pre-medical professions concentration (http://bulletin.gwu.edu/public-health/bs-public-health/pre-medical-professions-concentration/)

Combined program
• Dual Bachelor of Science in nutrition science and Master of Public Health in public health nutrition (http://bulletin.gwu.edu/public-health/exercise-science/dual-bs-nutrition-science-mph-public-health-nutrition/)
• Dual Bachelor of Science in public health and Master of Public Health

Minors
• Minor in bioinformatics (http://bulletin.gwu.edu/public-health/biostatistics-bioinformatics/minor-bioinformatics/)
• Minor in exercise science (http://bulletin.gwu.edu/public-health/exercise-science/minor/)
• Minor in nutrition science
• Minor in public health

MASTER'S

Master of Public Health
• Master of Public Health in the field of biostatistics (http://bulletin.gwu.edu/public-health/biostatistics-bioinformatics/mph-biostatistics/)
• Master of Public Health in the field of bioinformatics (http://bulletin.gwu.edu/public-health/biostatistics-bioinformatics/mph-bioinformatics/)
Master of Public Health in the field of community oriented primary care (http://bulletin.gwu.edu/public-health/prevention-community-health/mph-community-oriented-primary-care/)

Master of Public Health in the field of environmental health science and policy (http://bulletin.gwu.edu/public-health/environmental-occupational-health/mph-environmental-health-science-policy/)

Master of Public Health in the field of epidemiology (http://bulletin.gwu.edu/public-health/epidemiology/mph-epidemiology/)

Master of Public Health in the field of global environmental health (http://bulletin.gwu.edu/public-health/environmental-occupational-health/mph-global-environmental-health/)

Master of Public Health in the field of global health policy (http://bulletin.gwu.edu/public-health/global-health/mph-global-health-policy/)

Master of Public Health in the field of global health program design, monitoring, and evaluation (http://bulletin.gwu.edu/public-health/global-health/mph-global-health-design-monitoring-evaluation/)

Master of Public Health in the field of global health epidemiology and disease control (http://bulletin.gwu.edu/public-health/global-health/mph-global-health-epidemiology-disease-control/)

Master of Public Health in the field of health policy (http://bulletin.gwu.edu/public-health/health-policy-management/mph-health-policy/)

Master of Public Health in the field of health promotion (http://bulletin.gwu.edu/public-health/prevention-community-health/mph-health-promotion/)

Master of Public Health in the field of humanitarian health (http://bulletin.gwu.edu/public-health/mph-humanitarian-health/)

Master of Public Health in the field of maternal and child health (http://bulletin.gwu.edu/public-health/prevention-community-health/mph-maternal-child-health/)

Master of Public Health in the field of physical activity in public health (http://bulletin.gwu.edu/public-health/exercise-science/mph-physical-activity/)

Master of Public Health in the field of public health communication and marketing (http://bulletin.gwu.edu/public-health/prevention-community-health/mph-public-health-communication-marketing/)

Master of Public Health in the field of public health nutrition (http://bulletin.gwu.edu/public-health/exercise-science/mph-public-health-nutrition/)

Master of Public Health (MPH@GW) (http://bulletin.gwu.edu/public-health/mph-at-gw/)

Master of Science

- Master of Science in the field of biostatistics (http://bulletin.gwu.edu/public-health/biostatistics-bioinformatics/ms-biostatistics/)
- Master of Science in the field of epidemiology (http://bulletin.gwu.edu/public-health/epidemiology/ms-epidemiology/)
- Master of Science in the field of exercise science with a concentration in strength and conditioning (http://bulletin.gwu.edu/public-health/exercise-science/ms-concentration-strength-conditioning/)
- Master of Science in the field of health and biomedical data (http://bulletin.gwu.edu/public-health/biostatistics-bioinformatics/ms-health-and-biomedical-data-science/)
- Master of Science in the field of public health microbiology and emerging infectious diseases (http://bulletin.gwu.edu/public-health/epidemiology/ms-microbiology-emerging-infectious-diseases/)
- Master of Science in the field of management of health informatics and analytics (http://bulletin.gwu.edu/public-health/health-policy-management/ms-management-health-informatics-analytics/)

Master of Health Administration

- Master of Health Administration (http://bulletin.gwu.edu/public-health/health-policy-management/mha/)
- Master of Health Administration (MHA@GW) (http://bulletin.gwu.edu/public-health/health-policy-management/mha-online-executive-program/)

Specialist program

- Health Services Administration Specialist (http://bulletin.gwu.edu/public-health/health-policy-management/hsa-specialist/)

Combined programs

- Dual Master of Public Health and Doctor of Medicine (http://bulletin.gwu.edu/public-health/graduate-programs/md-mph/)
- Dual Master of Public Health and Master of Arts in any Elliott School graduate program (http://bulletin.gwu.edu/public-health/dual-ma-esia-mph/)
- Dual Master of Health Administration and graduate certificate in health care corporate compliance (http://bulletin.gwu.edu/public-health/mha-corporate-compliance-certificate/)
- Dual Master of Public Health in the field of health policy and graduate certificate in health care corporate compliance (http://bulletin.gwu.edu/public-health/mph-corporate-compliance-certificate/)
• Joint Master of Science in Health Sciences in the field of physician assistant and Master of Public Health (http://bulletin.gwu.edu/public-health/mshs-mph/)
• Joint Master of Public Health or SPH graduate certificate and Juris Doctor or Master of Laws (http://bulletin.gwu.edu/public-health/jd-mph/)

DOCTORAL

Doctoral programs

- Doctor of Philosophy in the field of biostatistics (http://bulletin.gwu.edu/public-health/biostatistics-bioinformatics/phd-biostatistics/)
- Doctor of Philosophy in the field of environmental health (http://bulletin.gwu.edu/public-health/environmental-occupational-health/environmental-health-phd/)
- Doctor of Philosophy in the field of epidemiology (http://bulletin.gwu.edu/public-health/epidemiology/phd-epidemiology/)
- Doctor of Philosophy in the field of exercise physiology and applied nutrition (http://bulletin.gwu.edu/public-health/exercise-science/phd-exercise-physiology-and-applied-nutrition/)
- Doctor of Philosophy in the field of health and biomedical data science, applied bioinformatics concentration (http://bulletin.gwu.edu/public-health/biostatistics-bioinformatics/phd-health-and-biomedical-data-science-applied-bioinformatics-concentration/)
- Doctor of Philosophy in the field of health and biomedical data science, applied bioinformatics concentration (https://next.bulletin.gwu.edu/public-health/biostatistics-bioinformatics/phd-health-and-biomedical-data-science-applied-bioinformatics-concentration/)
- Doctor of Philosophy in the field of health policy (http://bulletin.gwu.edu/public-health/health-policy-management/phd/)
- Doctor of Public Health in the field of environmental and occupational health (http://bulletin.gwu.edu/public-health/environmental-occupational-health/drph/)
- Doctor of Public Health in the field of global health (http://bulletin.gwu.edu/public-health/global-health/drph/)
- Doctor of Public Health in the field of health behavior (http://bulletin.gwu.edu/public-health/prevention-community-health/drph-health-behavior-specialty/)
- Doctor of Public Health in the field of health policy (http://bulletin.gwu.edu/public-health/health-policy-management/drph/)

- Dual Doctor of Medicine and graduate certificate in public health (http://bulletin.gwu.edu/public-health/combined-md-phgc/)
- Joint Master of Public Health or SPH graduate certificate and Juris Doctor or Master of Laws (http://bulletin.gwu.edu/public-health/jd-mph/)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master’s, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

While Public Health (PUBH) courses make up the bulk of Milken Institute School of Public Health (GWSPH) program curricula, the GWSPH offers courses in all of the following designations:

- Exercise and Nutrition Sciences (EXNS) (https://current.bulletin.gwu.edu/courses/exns/)
- Health and Wellness (HLWL) (https://current.bulletin.gwu.edu/courses/hlwl/)
- Health Services Management and Leadership (HSML) (https://current.bulletin.gwu.edu/courses/hsmil/)
- Lifestyle, Sports, and Physical Activity (LSPA) (https://current.bulletin.gwu.edu/courses/lspa/)
- Public Health (PUBH) (https://current.bulletin.gwu.edu/courses/pubh/)

Within PUBH, the number series below indicate the department in which a course is offered:

- PUBH 6000-6099: MPH Core and MPH@GW Program-Specific
- PUBH 6100-6199: Environmental and Occupational Health
• PUBH 6200-6299: Epidemiology
• PUBH 6300-6399: Health Policy
• PUBH 6400-6499: Global Health
• PUBH 6500-6599: Prevention and Community Health
• PUBH 6600-6699: Public Health Nutrition and Miscellaneous
• PUBH 6850-6899: Biostatistics and Bioinformatics
• PUBH 8000-8999: Doctoral-level
